Dear Ma'am:

Greetings of Peace and Abundance!

In line with the 2024 Board of Regents (BOR) approved research and extension projects, we are writing to respectfully request your good office to reconsider the list of faculty members not included in the names of some approved projects. The said faculty members were initially included in the proposal of the projects presented during the in-house review.

The said faculty members are integral parts of the proposals submitted for consideration. We understand that oversights can occur during the review and approval process. Nevertheless, we believe that the inclusion of these faculty members is crucial for the successful execution and completion of the approved projects. Their expertise and contributions play a pivotal role in the advancement of research and extension efforts within our department.

Thank you very much.

Respectfully yours,

MADAM :

Greetings!

We are very grateful that our proposed Research and Extension Activities for the year 2024 were almost all funded. However, a certain research proposal which is under the cluster of CENTER for SCIENCE TECHONLOGY, ENGINEERING, and ENVIROMENT entitled "Decomposed Roots of Rice Fields Weeds in Pangasinan as an Agent for Self-Healing Cement (1 project and 3 studies/ Proponent Dr. Ellen Grace B. Ugalde, et. al , with a Budget : P35,000.00)_was included in the list of approved extension proposals instead of research.

In relation hereto, may we request for a possible rectification of the said approved research which was listed on the approved extension activities of the campus.

Your approval on this matter will surely embark on an exciting journey for the researchers and extensionists of our campus.

Thank you and God bless.

Respectfully yours,
